Longfellow .....	1.00	3.00
Sanford White Flint .....	1.00	3.00

**SWEEPSTAKES CORN.** A very popular Broad grained yellow Dent Corn. Grows a very leafy stalk and matures its ears early.

**PEDIGREED IMPROVED EARLY LEAMING.** A Brand new Strain of Leaming. Matures its ears fully ten days earlier than this popular sort.

**GENUINE EUREKA ENSILAGE**

**EUREKA ENSILAGE** grows as high as 16 feet when strongly fertilized and will yield the most tons of Silage per acre of any corn.

**GARLAND'S BEAUTY SILO**

### WOODRUFF'S BEAUTY SILO CORN

The most profitable corn that goes into the silo. Grows 10 to 14 feet. Early and matures its rich golden ears even in Northern New England. From a few bushels of seed first put out by us in 1923, our dairymen of the East now require from us many thousands of bushels annually. Pecks, \$1.25; bu. \$4.00.

Dec. 14, 1928.

S. D. Woodruff & Sons,  
Orange, Conn.,  
Gentlemen:

The above is a photograph of **WOODRUFF'S SELECTED BEAUTY ENSILAGE CORN** on the Holy Cross College Farm of Worcester, Mass. It was exactly 95 days from planting to cutting. The germination was practically 100%, grew on an average of 12 ft. high and 75% of the stalks had two ears which measured on an average of 18 inches long. The ears were filled and fully matured for silo.
